

---

let's **TALK** about

---

**EXPLORING NATURE**

*Find an object and describe it.*

Where did it come from?

What does it need to live?

How long does it live?

How many colors does it have?

Is it or was it ever alive?

What does it feel like?

Does anything eat it?

What do you like about it?

What don't you like about it?

What would you name it?

Of all the things you found, which would you like to be?
