

Autumn CHARADES

Grab your phone or video camera! Get ready to capture all of the action when your kids play Autumn Charades. Simply print out the words and phrases, cut them into strips, and put them into a bowl. Have each player take a turn pulling out a slip of paper and acting out what's on it as the other players try to guess. Once someone calls out the right answer, the next player then takes a turn. Remind the kids that each item on the list has something to do with fall.
